

# Range: I16-068 Kompan Modular

Being above ground levels trains the child's spatial awareness.

Transparent tubes are designed to challenge the children both physical and psychological level.

Children need the dizzying input that comes from turning around in the tumbler as it helps the child's nervous system to mature.

Building blocks stimulate the creativity they try out new skills and explore their imagination.

The open toddler zone allows toddlers to learn and explore the world through play.

No matter their age, children loves a good slide! When visiting a playground the slide is often the activity they run to first.
