

# Range: I13-049 Kompan Modular

Caregivers and adults can interact with the children through the transparent design, providing an extra sense of security.

The themed exterior with print on the panels adds an extra layer of play by igniting children's imagination and desire to play.

Manipulative panels help encourage cognitive development.

While the children play and have fun, their skillsets develop from the many different types of play; physical, social and cognitive.

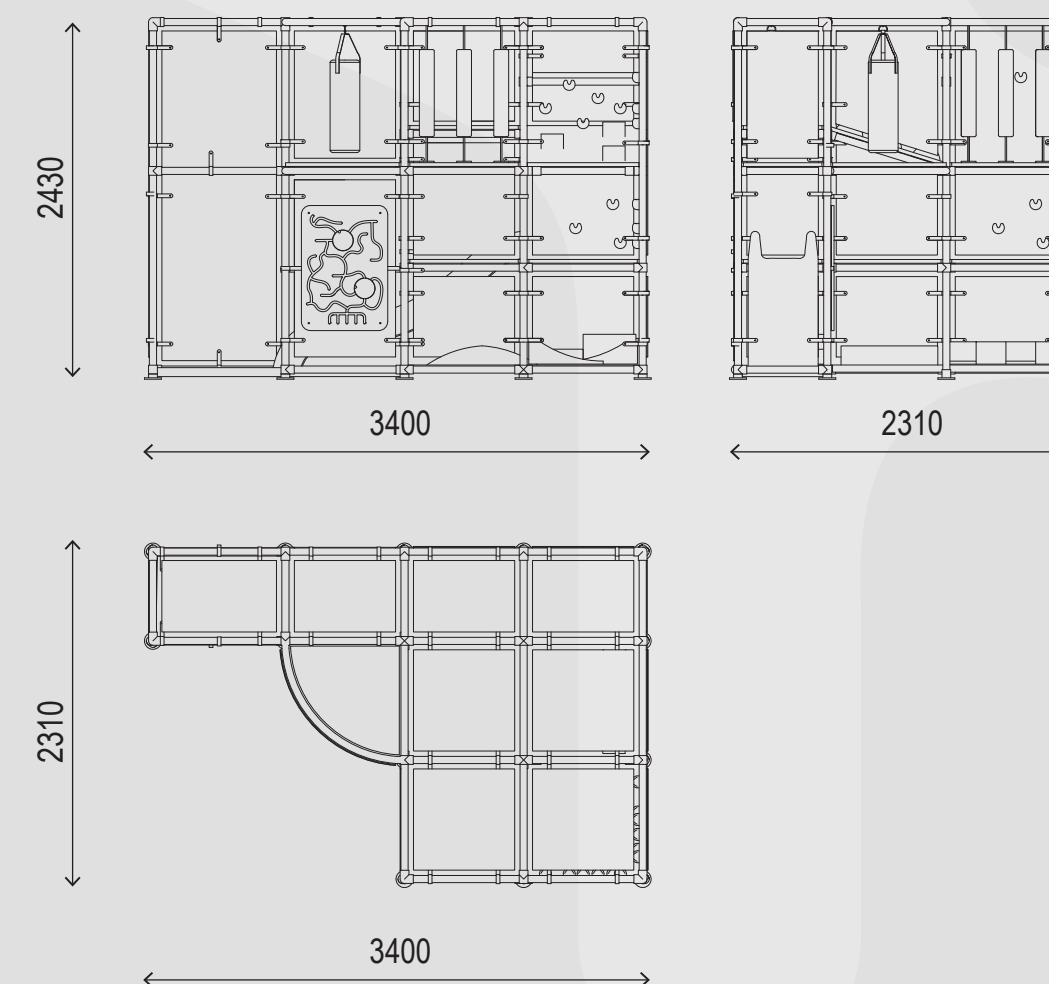

## Product information

### Activities

- Play panel
- Floor boxes
- Tric Trac
- Bump
- Toddler slide
