

Range: I19-035 Kompan Modular

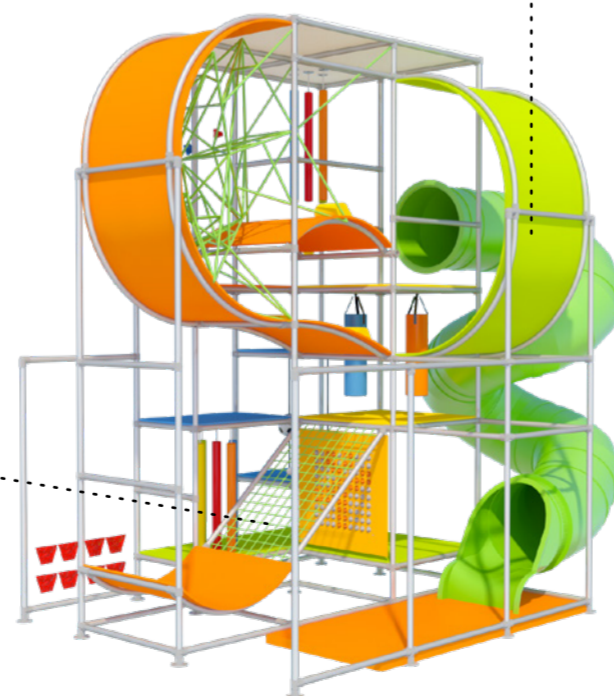

Transparent panels allows interaction and communication with others on the ground.

3D net Fast and efficient access on one half and a challenging climb on the other, both supporting sense of space and muscle strength

Shoes and boots are safely stored in the integrated shoe rack.

The climbing rope challenge the children's cross-coordination skills as well as their physical strength.

Sliding develops spatial awareness and sense of balance. Furthermore, the core muscles are trained when sitting upright going down.
